BEETECH®

Digital Soldering Station
937

Automatic

Sturdy

Easy to Read

Accurate

Safety

High quality

1 Year Warranty

Product Features

- The whole equipment uses conductive materials, specially designed to prevent static electricity
- The heater with imported materials and advanced technology has a long life.
- The heater uses low voltage DC Power Supply to ensure prevent-anti static, non-leakage, non-interference.
- The main power which used by the heater is completely separated from power grid.
- The handle is so light that users never feel tired even when working for a long time

About The Product

Beetech 937 is a Digital Soldering Sation and is a popular and widely used model. It is precise, stable and heats instantly. It has a light handle and hence is suitable for long time use without any discomfort. The temperature of this soldering station is controlled by a sensor. Beetech 937 is widely used in electrical repair shops, electronic laboratories and in industries. It is ESD Safe..

Specifications

Model	937
Input voltage	AC 200V – 240V ± 10% 50Hz
Output Voltage	AC 24V
Power consumption	80W
Temperature range	200°C-480°C / 392°F-896°F
Standard Tip	B
Display	LED
Tip to ground potential	<0.5mV
Dimensions	155 X 113 X 92
Weight	1.58 Kg
